

ARG Leads Tracker CRM

Development and maintenance budget estimate with attributable source of cost

Executive Budget Summary

Budget Area	Recommended Planning Amount	Basis
One-time development to finish CRM + ERP + API integrations	USD 25,000-45,000 AED 92,000-165,000	Current app complexity plus planned ERP inventory, quotation, and messaging integrations.
Monthly operating cost, excluding paid Zawya/LSEG feed	USD 2,300-4,500/mo AED 8,400-16,500/mo	Hosting, database, AI, NewsAPI, WhatsApp/messaging, monitoring, and support retainer.
Monthly operating cost, with paid Zawya/LSEG feed	USD 3,000-7,000+/mo AED 11,000-25,700+/mo	Adds market intelligence subscription where public fixed pricing is not available.
Annual operating reserve	USD 30,000-55,000/year AED 110,000-202,000/year	Recommended reserve for first production year after launch.

Recurring Monthly Cost by Source

Cost Item	CRM Feature / Usage	Estimated Monthly Cost	Source of Cost
Vercel hosting	Production web app and Node API routes. CRM users do not need Vercel seats.	\$20-40	Vercel Pro Plan pricing: platform fee and usage-based resources.
Supabase Pro	Auth for 2 admin users and up to 8 salesman users, Postgres database, storage, backups.	\$25	Supabase pricing: Pro plan includes 100,000 MAU, 8 GB database, 100 GB file storage.
Supabase add-ons	Optional point-in-time recovery, custom domain, log drains, extended controls.	\$0-160+	Supabase pricing: add-ons including custom domain, PITR, and log drains.
Google Maps / Places	Company search, public business enrichment, Google Maps URL, coordinates, nearby map links.	\$0-75	Google Maps Platform pricing: Places API Text Search and Place Details request tiers.
OpenAI API	Voice note translation/transcription, PMR analysis, lead summaries using configured OpenAI models.	\$20-100	OpenAI API pricing: audio translation/transcription and GPT text-token pricing.
Anthropic Claude API	AI lead actions, database assistant, business enrichment, market/relationship intelligence summaries.	\$25-150	Anthropic Claude pricing: model input/output token pricing.
Hunter.io	Optional domain/email enrichment for customer contacts.	\$34-104	Hunter pricing: Starter/Growth plans and API credit model.

Cost Item	CRM Feature / Usage	Estimated Monthly Cost	Source of Cost
NewsAPI	Production market news card for steel, UAE construction, oil and gas, marine, metals.	\$449	NewsAPI pricing: Business plan for production/commercial use.
Zawya / LSEG market intelligence	Optional project and market intelligence feed matched to companies.	Quote, budget \$500-2,000+	Zawya/LSEG commercial data feed; public fixed price not available, quote required.
Whistle / WhatsApp messaging	Planned messaging integration, customer follow-ups, templates, activity logging.	\$50-300+	Whistle vendor subscription or WhatsApp Business API provider plus Meta/message fees.
ERP API / inventory integration	Live stock status, price lookup, quotation validation and quotation preparation.	\$0-500+	ERP vendor license/API access; depends on your ERP contract and connector availability.
Monitoring and backups	Uptime checks, error logging, audit retention, operational alerts.	\$20-100	Third-party monitoring/logging tools or built-in platform add-ons.
Developer maintenance retainer	Bug fixes, API monitoring, small improvements, data cleanup, monthly reporting.	\$800-2,500	Ongoing engineering/support service cost, not a platform fee.

One-Time Development Estimate

Workstream	Scope	Estimated One-Time Cost	Cost Driver / Source
Production hardening	Security/RLS review, admin and salesman permissions, backups, rate limits, error handling.	\$3,000-7,000	Current CRM codebase and Supabase/Vercel production requirements.
ERP inventory + pricing API	Live stock, product availability, price lookup, quotation reference validation, cache/audit logs.	\$8,000-18,000	Planned ERP integration; final depends on ERP API documentation and data quality.
Quotation workflow	Quote builder, quotation PDF, approval/status tracking, ERP quote sync.	\$5,000-12,000	Planned business workflow beyond current quotation reference field.
Whistle / WhatsApp integration	Message templates, opt-in handling, customer activity logging, delivery status tracking.	\$3,000-8,000	Provider setup, WhatsApp template approval, CRM timeline integration.
Google Places/map refinement	Field masks, caching, cost controls, map/customer navigation UX.	\$1,500-4,000	Google Places API implementation and usage optimization.
Data migration/import cleanup	2,000 active customers, duplicate cleanup, field mapping, validation reports.	\$2,000-6,000	Existing customer base and current CSV import/duplicate workflow.
QA, deployment, training docs	Mobile checks, role tests, production smoke tests, admin handover.	\$2,000-5,000	Launch readiness and user onboarding.

Key Assumptions

- The reviewed CRM currently supports Supabase-backed authentication/database/storage with local JSON fallback for development.
- The team size assumed here is 2 admin users and up to 8 salesman accounts, with about 2,000 existing active customer records.
- The ERP inventory and quotation integration is not fully implemented yet; the current service is a read-only stub pending ERP API details.
- Whistle/WhatsApp is treated as a planned integration because no active Whistle integration code was found in the reviewed CRM.
- All platform prices are planning estimates and should be revalidated before purchasing because SaaS/API prices can change.

Cost Source Names

Source Name	Used For
Supabase pricing	Database, Auth users, file storage, backups, add-ons.
Vercel Pro Plan / Vercel pricing	Hosting, deployment platform, usage-based infrastructure.
Google Maps Platform pricing	Places API Text Search, Place Details, map-related usage.
OpenAI API pricing	Voice transcription/translation and text model processing.
Anthropic Claude pricing	Claude AI enrichment, AI actions, database assistant.

Source Name	Used For
Hunter.io pricing and Hunter API docs	Email/domain enrichment credits and subscription tier.
NewsAPI pricing and terms	Commercial production market news feed cost.
Twilio WhatsApp pricing / WhatsApp Business API provider pricing	Reference proxy for WhatsApp message and template fees if Whistle pricing is custom.
Vendor quote required: Zawya/LSEG and ERP provider	Market intelligence feed and live ERP connector/API access.

Recommended planning number: prepare USD 40,000 one-time plus USD 3,500/month for the first 6 months. This gives room for ERP discovery, WhatsApp setup, NewsAPI, and regular developer support without committing prematurely to enterprise plans.
