Monitoring / incident tools setup	Optional uptime checks, log drain setup, alerting workspace.	\$0-100	Monitoring provider or platform add-on setup.
Data import tools	CSV cleanup helpers, test import files, optional spreadsheet tooling.	\$0-100	Mostly free if done manually; budget for small utility subscriptions if needed.

Key Assumptions

- The reviewed CRM currently supports Supabase-backed authentication/database/storage with local JSON fallback for development.
- The team size assumed here is 2 admin users and up to 8 salesman accounts, with about 2,000 existing active customer records.
- Developer labor is excluded because the owner will develop the CRM and will not charge a developer fee.
- The ERP inventory and quotation integration is not fully implemented yet; the current service is a read-only stub pending ERP API details.
- Whistle/WhatsApp is treated as a planned integration because no active Whistle integration code was found in the reviewed CRM.
- All platform prices are planning estimates and should be revalidated before purchasing because SaaS/API prices can change.

Cost Source Names

Source Name	Used For
Supabase pricing	Database, Auth users, file storage, backups, add-ons.
Vercel Pro Plan / Vercel pricing	Hosting, deployment platform, usage-based infrastructure.
Google Maps Platform pricing	Places API Text Search, Place Details, map-related usage.

Source Name	Used For
OpenAI API pricing	Voice transcription/translation and text model processing.
Anthropic Claude pricing	Claude AI enrichment, AI actions, database assistant.
Hunter.io pricing and Hunter API docs	Email/domain enrichment credits and subscription tier.
NewsAPI pricing and terms	Commercial production market news feed cost.
Twilio WhatsApp pricing / WhatsApp Business API provider pricing	Reference proxy for WhatsApp message and template fees if Whistle pricing is custom.
Vendor quote required: Zawya/LSEG and ERP provider	Market intelligence feed and live ERP connector/API access.

Recommended tool-only planning number: prepare USD 1,200 one-time setup reserve plus USD 2,000/month for the first 6 months, excluding any paid Zawya/LSEG market intelligence feed. If Zawya/LSEG is required, prepare up to USD 4,000/month until the vendor quote is confirmed.
